- Worked on MSSQL, and actively participated in Database Design.
- Created multiple NPM packages, multilanguage, localization applications and Application theming.
- Managed third party vendor to get desired output for UI development.
- Built mobile application in Flutter.

Centiro Solutions Pvt Ltd | Product Base | Software Developer | Angular | .Net Core | Flutter

JUNE

2020 – PRESENT

- Working with research and development team.
- Developed enterprise products to solve challenging problems.
- Developed 5+ enterprise robust, scalable products.
- Technology and platform shift on the organization level to stay ahead in industry. Setting up standards, best practices, and processes for clean architecture.
- Designed the best UI-centric application for user-centric clients.
- Created NPM packages and generic libraries.
- Developed new, efficient, and well-tested code for variety of different software projects.

SKILLS

Angular 2 and above
.NET Core ,Entity Framework 6
Charts and Data visualization
Application theming
HTML5, CSS 3, SCSS , Angular Material
Local Storage , Session Storage
Typescript
GIT
Scrum, Agile

NgRx, RxJS
NPM Package & Library creations
Design Systems & Templating
Translations & Localizations
Bootstrap 4 & 5, Font Awesome
WEB API
Angular libraries
Azure
Flutter (BLOC, Riverpod)

PROJECTS

Censhine | Centiro Solutions Pvt Ltd (Angular 13 | .Net Core)

Censhine is a B2B SaaS(Software as a service) product and single platform for Organization to manage their Governance, Risk & Compliance (GRC) related needs.

Role : Software Developer.

Version Control : GIT.

Domain : Compliance.

Lifecycle Model : Agile Methodology.

Censhine Design System – clean UX | Censhine (Angular 13)

We created a design system which is a kind of framework that provides different tools and components for application development. We have designed templates, Angular components, multiple NPM packages, and many more to make developer life easy and development fun. This gives most of the ready-to-use tooling which creates standard styling for the applications.

Technology Used : Angular 13, Angular Material, Angular Libraries, NPM Packages, Theming, SCSS, Font Awesome

Role : Software Developer.

Version Control : GIT.

Lifecycle Model : Agile Methodology.

Track and Trace | Centiro Solutions Pvt Ltd (Angular 10 | .Net Core)

Track and trace has developed to track the location of parcels. It shows all detail information about the Parcel and their status.

Technology Used : Angular 10, .NET Core, Bootstrap, SCSS.

Role : Software Developer.

Version Control : GIT.

Domain : Logistics.

Lifecycle Model : Agile Methodology.

Censhine Meerkat | Centiro Solutions Pvt Ltd (Flutter | .Net Core)

Censhine Meerkat Mobile application is built to manage GRC requirements.

Technology Used : Flutter (RiverPod Architecture), .NET Core, MSSQL.

Version Control : GIT.

Domain : Compliance.

Lifecycle Model : Agile Methodology.

Role : Software Developer.

Cme Tours | Centiro Solutions Pvt Ltd (Flutter)

Cme Tours mobile application is built to manage shipments/parcels regarding their delivery.
Application give offline support for the delivery partners.

Technology Used : Flutter (RiverPod Architecture).

Version Control : GIT.

Domain : Logistics.

Lifecycle Model : Agile Methodology.

Role : Software Developer.

ACADEMIC QUALIFICATIONS

C-DAC | IET Pune

AUGUST 2019 - MARCH 2020

Percentile – 63.00 %

Bachelor of Computer Engineering |

KDKCE Nagpur

JUNE 2015 – MAY 2019

CGPA - 6.83
